Delhi - 110093, India

OBJECTIVE

Full-Stack Developer skilled in React.js, Node.js, Firebase and MongoDB. Built and deployed 5+ web applications with REST API integration and real-time data handling. Hands-on experience in frontend-backend development, version control (Git), and scalable application design.

SKILLS

- **Programming Languages:** JavaScript, Python, SQL
- **Frontend:** React.js, HTML, CSS
- **Backend**: Node.js, PHP
- **Database**: MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, REST APIs, FastAPI, Firebase

EXPERIENCE

- **Summer Training Intern – DRDO DIPAS | Oct 2025 – Nov 2025 | Timarpur, Delhi (On-site)**
  - Developed a data analysis tool using Python and integrated it with a web-based interface.
  - Built frontend components using React.js and handled data processing pipelines.
  - Worked with structured datasets and optimized backend logic for faster computation.
- **Tech Intern – LittleMove | Jul 2025 – Aug 2025 | Remote**
  - Developed responsive frontend interfaces using React.js for Support and Billing modules.
  - Built and integrated REST APIs for handling user queries and billing data.
  - Worked with MongoDB for database operations and backend data management.

EDUCATION

- **HMR Institute of Technology and Management, Affiliated with GGSIPU**

  Bachelor of Technology (B.Tech) | CGPA: 8.02/10 (Current) | 2022–2026 (Expected)
- **Sarvodaya Kanya Vidyalaya Mandoli (CBSE - 12th)**

  Senior Secondary Education | Percentage: 81.0% | 2021–2022
- **Arwachin Bharti Bhawan Sr. Sec. School (CBSE - 10th)**

  Secondary Education | Percentage: 80.4% | 2019–2020

PROJECTS

- **BioVault – Secure Biomedical Data Portal**
  - Developed a full-stack web application using React.js, Node.js, and MongoDB.
  - Implemented REST APIs and role-based authentication for secure data access.
  - Integrated Firebase authentication and real-time database sync.
- **IngreGenius – Full-Stack Recipe Recommendation Platform**
  - Built a full-stack application using React.js and integrated external APIs (TheMealDB).
  - Developed REST API-based architecture for data fetching and user interactions.
  - Implemented authentication, favorites feature, and dynamic filtering.

CERTIFICATIONS

- IBM SkillsBuild Project-Based Learning Program: *Click, Code, Create* - IBM & CSRBOX (Jul-Aug 2025)
- IBM Web Dev Fundamentals Credential – IBM SkillsBuild (Jul 2025)
- Full Stack Web Development – Internshala (Jul–Oct 2024)

ACHIEVEMENTS

- **Published Research Paper –** *Exploring the Diverse Applications of Thermal Cameras* in AIJR; presented at ICAMC-2024, HMRITM.
- **Smart India Hackathon (SIH) 2025 –** Worked with a team of six to develop "Clashers," a 1v1 game featuring customizable characters, secure authentication, and smooth performance on low network connectivity.
