

SKILLS

- **Programming Languages:** JavaScript (ES6+), Python, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Authentication & APIs:** JWT Authentication, REST APIs, Firebase Auth
- **Deployment & Tools:** Git, GitHub, Postman, Vercel, Firebase, Render

PROJECTS

- **Smart Notes** | React.js, Node.js, Express.js, MongoDB, JWT
 - Developed a full-stack notes management application using React.js, Node.js, Express.js, and MongoDB.
 - Implemented secure JWT-based authentication and protected API routes.
 - Built CRUD operations improving note management workflow.
 - Designed responsive frontend UI and integrated REST APIs for seamless user experience.
 - Managed backend routing, middleware, and database schema optimization.
 - Deployed frontend application on Vercel.
- **BioVault** | React.js, Node.js, Firebase Auth, REST APIs
 - Developed a full-stack web application using React.js, Node.js and Firebase.
 - Implemented REST APIs, role-based access control, and authentication for protected biomedical data access.
 - Integrated Firebase Authentication and real-time database synchronization.
 - Optimized backend performance and structured database operations for scalability
 - Deployed application using Firebase hosting and authentication services.
- **IngreGenius** | React.js, REST APIs, Firebase
 - Developed a recipe recommendation platform using React.js and TheMealDB API.
 - Implemented recipe filtering, favorites management, and responsive UI components.
 - Integrated Firebase authentication and REST APIs for user interaction handling.

EXPERIENCE

- **Summer Training Intern – DRDO DIPAS | Oct 2025 – Nov 2025 | Timarpur, Delhi (On-site)**
 - Developed a data analysis tool using Python and integrated it with a web-based interface.
 - Built frontend components using React.js and handled data processing pipelines.
 - Worked with structured datasets and optimized backend logic for faster computation.
- **Tech Intern – LittleMove | Jul 2025 – Aug 2025 | Remote**
 - Developed responsive frontend interfaces using React.js for Support and Billing modules.
 - Built and integrated REST APIs for handling user queries and billing data.
 - Worked with MongoDB for database operations and backend data management.

EDUCATION

- **HMR Institute of Technology and Management, Affiliated with GGSIPU**
Bachelor of Technology (B.Tech) | CGPA: 8.14/10 (Current) | 2022–2026 (Expected)
- **Sarvodaya Kanya Vidyalaya Mandoli (CBSE- 12th)**
Senior Secondary Education | Percentage: 81.0% | 2022
- **Arwachin Bharti Bhawan Sr. Sec. School (CBSE- 10th)**
Secondary Education | Percentage: 80.4% | 2020

ACHIEVEMENTS

- **Published Research Paper – Exploring the Diverse Applications of Thermal Cameras** in AIJR; presented at ICAMC-2024, HMRITM.
- **Smart India Hackathon (SIH) 2025** – Developed “Clashers,” a multiplayer 1v1 game with secure authentication and optimized low-network performance.
